CWY YEAR ROUND MASTERY for March 2019 Boards

Subscribe to year round support for upgrading your BOARD RESULTS in the 2018-19 Session.

- Not only will all your students have unlimited access to CWY Sessions in all topics by TARGETplus, they can generate their own tests and practice sessions on any number of topics in any subject provided by TARGETplus.
- Teachers too can generate complete CWY diagnostic papers at the click of a button to get full diagnosis of their class needs and thus make perfection of a class much easier and time efficient. These assessments provide diagnostic feedback to students, teachers and the Principal.

- In addition, complete CWY Sessions are made available on the complete course to replace or add to your typical Pre-Boards at the end of course work.
- As no teacher corrections are required, the school can give many more CWY Pre-Board Mastery Sessions than possible in the typical formats.
- CWY Mastery Assessments are third-party evaluation of your students that combine learning with assessment so that students overcome their weak areas through learning provided online at their personal level. There is no more efficient or effective way to prepare your students for the Boards.
